

Ahteazaz Ahsan Khan

Data Engineer | AI/ML Engineer | Data Analyst | BI & ETL Developer

AI Automation Engineer | Database & Cloud Technologies

G11, Islamabad, Pakistan +92-313-564-2822 ahteazaz3421ahsan@gmail.com <https://linkedin.com/in/ahteazaz-ahsan-khan>
<https://github.com/Ahteazazahsan>

Data, AI/ML, analytics, and automation engineer with 3+ years of hands-on experience across data engineering, machine learning, AI automation, ETL/ELT, BI, LLM/RAG systems, databases, and production-oriented software workflows.

EDUCATION

FAST-NUCES | Islamabad, Pakistan 2022 – 2026
BS Data Science/AI — 2x Dean's List Coursework: Machine Learning, Deep Learning, NLP, ETL, Data Mining, Data Warehousing
Jinnah Jame College, Haripur 2020 – 2022
F.Sc — Physics, Chemistry, Mathematics (Full Tuition Scholarship)

TECHNICAL SKILLS

Data Engineering ETL/ELT, Snowflake, Airflow, Kafka, Spark/PySpark, Data Warehousing, Star Schema, Data Modeling, Data Quality, Data Integration, OLAP
Analytics & BI Power BI, Tableau, Excel, EDA, KPI Reporting, Data Visualization, Business Intelligence
Databases & SQL PostgreSQL, MySQL, SQL Server, MongoDB, Qdrant, SQL, PL/SQL, Stored Procedures, Query Optimization, Relational Databases, NoSQL, Vector Databases
AI/ML & LLM Machine Learning, Deep Learning, NLP, Computer Vision, RAG, Multi-Agent AI, AI Agents, LangChain, LLM Evaluation, Hugging Face, PyTorch, TensorFlow/Keras, Scikit-learn, SHAP, LIME, Grad-CAM
AI Automation n8n, Zapier, Workflow Automation, AI-Powered Workflows, Webhooks, API Integration, Dynamic Tool Calling, Human-in-the-Loop, Conditional Routing, Model Fallback
Software & Cloud Python, C++, C#, Java, JavaScript, Docker, Git/GitHub, Linux/Ubuntu, REST APIs, Flask, React.js, Node.js, AWS, BigQuery, Jira/Atlassian, ServiceNow, ITSM, Agile Workflows, CMake, Pytest, .NET

WORK EXPERIENCE

Research Assistant — Junior Data Scientist | FAST-NUCES, AI & Data Science Research Lab, Islamabad Aug 2025 – Present
• Drive applied ML research across deep learning, XAI, healthcare, cybersecurity, and intelligent systems through model development, experimentation, evaluation, and reproducible Python pipelines.

Freelance AI/ML, Data & Software Engineer | Independent / Remote, Global Clients 2024 – Present
• Engineer end-to-end AI/ML, data engineering, analytics, BI, LLM/RAG, automation, API, database, and software solutions using Python, SQL, Docker, Git, and cloud technologies.

AI/ML Engineer Intern | SkyLabs AI, Islamabad Jun 2024 – Aug 2024
• Supported end-to-end AI/ML and data workflows involving data preprocessing, ETL, feature engineering, model development, evaluation, experimentation, and LLM-based solutions using Python and modern machine-learning frameworks.

PROJECTS

BluePrint AI — Cloud Architecture Planner | Python, RAG, LangChain, React.js, Node.js, AWS, MongoDB Final Year
• Developed an LLM/RAG system that converts natural-language requirements into AWS architecture recommendations through retrieval, backend APIs, validation logic, and a web interface.

Production E-Commerce Data Engineering & BI Pipeline | Python, PostgreSQL, Snowflake, Airflow, Docker, SQL, Power BI 2026
• Engineered an automated ETL/ELT pipeline covering ingestion, data quality, Snowflake star-schema warehousing, Airflow orchestration, Docker execution, analytics marts, and Power BI-ready datasets.

Telegram AI Business Agent — RAG Automation Platform | FastAPI, n8n, Gemini, OpenRouter, Qdrant, PostgreSQL, Docker, Vercel 2026
• Engineered a production-oriented Telegram business agent with RAG-based knowledge retrieval, persistent conversation memory, intent classification, secure webhooks, LLM fallback, database logging, human-handoff detection, and real-time administrator alerts.

Mini Spotify — Big Data Recommendation System | Spark, PySpark, MLlib, Kafka, MongoDB, Flask 2024
• Built an ALS recommendation system on **106K+ tracks** using distributed Spark processing, Kafka activity streams, MongoDB persistence, and a Flask interface.

Cafe Management System | C#, .NET, Windows Forms, SQL Server, CRUD, POS 2025
• Developed a database-backed desktop system for orders, billing, payments, inventory, employee/product management, and operational reporting.

CERTIFICATIONS & ACHIEVEMENTS

Certificates: Probability & Statistics, Advanced Statistics, Database, Information Security FAST-NUCES
Achievements: 2x Dean's List Awardee | Full Tuition Scholarship | NaSCon'25 Print Team Coordinator
